

Deeze Sphynx...About the Sphynx Breed

Sphynx cats are highly social, "velcro" companions often described as a mix between a cat, dog, monkey, and parrot. They require more maintenance than typical cats, including **routine baths** and weekly **ear/nail cleaning**. Because they are so attached to their humans, they are best suited for homes where people are present frequently.

Waitlist & Selection Process

- **Average Wait:** Approximately **4 months**, though rare colors or eye types may take longer. We batch litters and deliver kittens three times a year, usually April, August & November.
- **Kitten Selection:** Waitlist families choose their specific kitten around **6 weeks of age**, in the order reservations were received. Keep track and watch for messages during pick time. If I don't hear from you by next day I will have to go on to the next family on the waitlist.
- **Go-Home Timeline:** Kittens stay with their mother for **12–14 weeks** for proper socialization and health.

Health & Care Standards

- **All breeding adults are fully health tested and have yearly HCM echocardiograms.**
- **Included Care:** All kittens receive vet visits, vaccines (9 & 12 weeks), deworming, and microchipping before leaving.
- Kittens go home with 30 days of complimentary Trupanion medical coverage with no waiting period as part of your kitten's transition from my care to yours.
- **Spay/Neuter Policy:** Kittens are sold with a **spay/neuter contract** to be completed by 8 months. We do not fix kittens before they go home to allow for proper hormonal growth.
 - Note: Failure to provide proof of fixing by 8 months incurs a \$1,000 fee for breeding rights.

Delivery & Logistics

- **Hand Delivery:** We personally drive kittens from Mazatlán through **AZ, CA, OR, and WA (ID & NV** in the summer or if the weather cooperates).
- **Flight Courier:** Available nationwide for **\$500–\$750** (in-cabin only). Please note that flight delivery can be subject to standby delays or weather.
